

# BLY'S-MESH

## METAL VISCOUS PANEL FILTER

The **Bly-Mesh** filter offers a washable metal viscous style panel filter with a large surface area of stainless steel mesh exposed the air stream. These filters have an stainless steel frame with drain holes to allow the excess grease/oil to flow from the filter. Installation into track for slide mounting or use with the Aust-Air Uni-Lok Holding frame. Maintenance is normally by washing with hot soapy (non-caustic) water and then drying before returning to service.

## TYPICAL APPLICATIONS

\* Kitchen Exhaust

\* Oil Mist Collectors

\* General Industrial
